About This Game

A long time ago people lived peacefully; they lived and died, they improved, explored, and discovered, but they wanted more. They became greedy, they wanted to be kings and rule the world.

Unnecessary fights, murders, wars... Gods decided to stop this.

At the end of every year, during December, they opened gates to Hell so demons could freely punish, torture and kill. The world began to become part of hell. People stopped fighting each other, they united, but that was not enough to defend themselves.

One demon was different, much stronger than everyone else, who once was a man, an assassin, who killed others to live, which in turn landed him in Hell.

But after some time in Hell, he had grown weary and regretted his past life and wanted to help the humans.

He became a guardian, and at the end of each year he fought off the demons.

The people called him Guardian of December.

The Devil noticed that his armies were being slain, so he offered a deal: no demon will ever come to Earth again, but the Guardian of December must return to hell.

The people were saved and the guardian's soul was trapped in hell once again.

After a year, when the gates of Hell were opened again, the people were hoping that no demons would come out again...

But the Devil broke his deal and demons started crawling out...

The Guardian must return...

Gods give you the power to fight your way out of the hell prison and save the world. After getting out you reach the Arano village, where its leader Taru explains their plan on how to reach the Devil and kill him. The Devil's Medallion will take you to the Devil, but you need to collect its pieces first. Villagers along with other creatures built portal that can transport to the medallion fragments, but the humans are too weak for such missions. So Guardian's assistance is necessary.

Go through ice cave, dungeon, temple, darkness collection, castle, swamp, fight the witch, vampires, monsters, undead creatures, magic animals and many more, get stronger, unlock new skills, get new weapons, customize your Guardian with helmets and wings you get from battles, get to know about different creatures, their stories... Hey, so as a Youtuber, I must say--This is quite possibly one of the best horror games I've seen! If you can get over the fact that the game has fixed perspectives, you'll probably have quite a lovely time playing it.

Pros:Genuinely terrifying atmosphere, decent story, and very spooky events. Decent progression if you know how to manage your resources

Cons:I have NO idea what happens if I game over. Do I have to start all over again? Hopefully I won't need to find out, but a save point would be a nice reassurance.

Fixed perspective can be mildly irritating with navigation.

The actual random encounters are only really good for a flinch. not a real scare. Probably could use a variety of sounds for the jumpscare so we don't get the same one over and over.

Mind, I haven't played past the first hour or so. But still, I totally recommend it!

.Okay, first, play the game before you buy the soundtrack. Personally, I found the "music", and I use that word loosely, totally annoying to the point that I said to myself, "if this doesn't get better, I'll play with speakers turned off." Secondly, when the game starts, I was wandering around aimlessly, and the devil was whispering repeatedly something intelligible and after wandering through the whole first floor\dungeon\basement, I saw two blobs that I guess were silhouettes, but I could not figure out how to interact with them or battle. I deleted the game from my hard drive\PC and marked the category as "don't like", so that when I get a new PC someday, I don't waste time downloading this again.
