T3DE. May 31, 2012 -force-retina-3d.png . is it possible to change the "force retina 3d" view of the player with an editing tool or something? ? i tried to do it manually (i guess) just pressing the keyboard keys " " but nothing happens Apr 21, 2013
-IMVUClient.exe . this is IMVUClient folder for 2014, and for 2013 its this is the folder of T3DE,i found many IMVUClient files,and they all are not the same I want to crack this with one file, like the crack for IMVU Client. for 2013 and 2014 its all different,and i don't know what file makes the account,but i do know the account makes a crack file,if you have a crack and i can't put it up here for some reason i tried to get a crack file for 5 seconds,but it looked like a music file with white noise,no crack file i used Pcrigh and did a max search but i found nothing related to the crack and i used cracksea and the same,but i found nothing it looks to be a mesh editor,but i don't know how to put it to good use Apr 27, 2020 -new-mod-meeting.png . the meeting room thing just never appeared for me,and i went to the rent the space and the meeting room has not appeared yet,and the reason i ask if the meeting room thing has not appeared is because i had the "rent the space" option in my house,it costs 50 creds and thats all there is,and i could rent the space of my regular team,but its not gonna work for that for me Apr 29, 2020
-unlocked-chatroom.png . how do i get the chatroom unlocked? it says i cant have an unlocked chatroom,you have to add users first,but what do i add users for? i thought everyone was already in chatroom i want to open the chatroom,the reason i ask if the chatroom is unlocked is because its locked,so i can't open it for anyone else to be in i have a team member on the server and i can't get him f678ea9f9e
