9/10 I absolutely love this game. It's addictive and very rewarding when you get in the 'zone' and have all the planes moving smoothly around your chosen airport. The game is made by ONE person which is pretty amazing. I highly recommend Airport Madness 3D, especially if you're interested in Air Traffic Control, real time strategy, planes, airports and/or adrenalin fueled gameplay :). ye sbest ggame. Although it is only a prototype, the game is really enjoyable. Great atmosphere.

Although the developers say that the graphics are simple and cheap, they are kind of ideal - not too much details and a lot more atmosphere.

The interface is really imersive.

The developers are making the game even more interesting with their history as a part of the game in the for of notes.

I recommend it and I would buy the other games.. What a really fun game. I played this on the Xbox 360 when I was younger and thought it was stupid. After getting it on sale and playing it all again, I saw that younger me was wrong.

This game is a fun way to re-live a lot of the WW2 ship battles between the US and Japan. It lets you control all types of ship classes from PT boats all the way up to the huge carriers. You can swap between ships and planes (when you can control them) to be able to do more than just sit in the water.

The difficulty scales up through the campaign fairly well. It starts you out easy but by the end, the matches can go for more than 30 minutes a level.

I would recommend getting this game if you are into WW2 history and naval combat.. Did I just waste an entire month worth of saving, just to buy an OST?

Yes, I did.

Rockman X8: Paradise Lost is my absolute favorite game of all time, and the OST is awesome. Would have been great if it had The Lost Tracks, too. But, I ain't complainin'!. Pre gameplay: Alright the objective is to sparkle space.

Post gameplay: ...you know what, space doesn't need sparkling.

A fun little game that I play when I get bored of shooters or other games. Very fun and challenging with rewarding online gameplay. There is no reason why you shouldn't pick it up for \$1.99. I would recommend this game! After a bit of work I think it's going to be a pretty fun and also quite frightening game to play! ^_^ Brief outline of the game.. Having ended up on an remote and abandoned island, you find yourself in a life and death battle against an evil coming straight from perdition. With each of your four friends possibly being a bone chilling demonic entity that will try to slaughter the rest of the group - who can you trust?

Daemonical is an early access multiplayer survival horror game created by Fearem & published by Gamifier! You and 4 friends spawn on an island and work together to survive and beat the curse.. however, as soon as dusk falls one of the 5 people transforms into a demon that is hellbent on murdering everyone! You have to collect pieces of a skeleton and place them all on an alter to defeat the demon and vanquish it back to hell!

We picked this up as soon as it was released on August 15th and this is what transpired! If you fancy having a look click link below!

<https://www.youtube.com/watch?v=g8L2vp4mm0>. There is a lot of work to be done, but I want to go ahead and give this a thumbs-up. What is here is sort of a skeleton of a really fantastic game (which will already offer quite a bit of fun to hardcore fans of the genre).

And yes I feel pretty confident in my assessment after <1 hour. Keep up the good work devs!
. Microtransactions in a clicker game. Please just kill me already.. Fun arcade game. Simple controls working pretty good with gamepad. Tried only single player and felt really intense, pretty sure the multiplayer must be awesome. Terrible game. Way to hard and i have to exit every time i die cuz i keep respawning INSIDE THE FLOOR so i cant move while i watch my enemies dancing like ♥♥♥♥ing balerinas in front of me! They shoot you at the millisecond they see you, 2 seconds and youre dead m8. And the grapphics are worse then Red Faction.. Worth getting. great music fun dialoge hope the devs keep making great content.. This game is awesome, If you love the escapists and if you love The Walking Dead, Get it..It's worth it.. Rest In Peace TABG, you will be missed.
